

# SHORT MANUAL OF THE ISAT SYSTEM (for reviewers)

## PART I. Accessing the system

The initial steps to prepare for the review process are the following:

- **Create user account** in the ISAT system, or...
- **Login to the system** if you have registered in the system, earlier (e.g. participating previous ISAT conference).
- You can **recover your password** if you have forgotten it.
- **Fill up** or correct your **personal information**.

Then system administrator grants you proper rights to be able to perform reviews. **After granting reviewer rights** you should:

- **Select priority topics** you are familiar or interested in.

### A. Logging in.

Logging in to the conference system is available from the conference site <http://www.isat.pwr.wroc.pl>. To enter the ISAT management system select **LOG IN** button on the left. You can also enter in the browser direct link <http://www.isat.pwr.wroc.pl/system>.

If you haven't registered in the ISAT system yet, first you must to **create your account (1)** in the system. If you have already registered in the ISAT system (e.g. participating previous ISAT conference), in order to log in to the system you need to enter your **username (2)** (if you have set up it earlier) or **e-mail address (2)** and **password (3)**. If you have forgotten your password you can **"recover" your password (4)**. You receive it on e-mail address given during registration.

The topics are fairly general. Authors of papers specify these topics. You should select for the review process one or more **topics (10)** you are interested in or are familiar with (less or more). The choice will be considered just as an hint. If possible select also topics you are on average familiar, please.

**Priority Topic Selection**

Here the predefined priority topics can be assigned to the reviewers / members of the program committee. This makes assignment of the contributions to suitable experts easier.
